FY23 Results and Record Order Backlog

Following the focus on the Energy and Carbon Neutrality business (including the sale of the San Vitale Shipyard and the "AMT CARRIER" semi-submersible pontoon, acquired in 2021), the company posted solid growth in FY23. We like the robust order backlog, which continues to provide visibility for the medium term.

Strong increase in 2023 VoP in both Oil&Gas and Renewables and Carbon Neutrality

Main drivers of 2023 were: i) the sound backlog and order intake, following the recovery of the Energy segment; ii) the increasing weight of the Renewables and Carbon Neutrality segment; iii) the sale of the San Vitale shipyard and AMT Carrier pontoon (generating around EUR 8.1M capital gain), marking the exit from the Shipyard business and compensating the loss made within this segment; iv) the ability to follow the market demand with an increasing VoP thanks to the strengthening of human resources.

EUR 818M order backlog o/w 60% from Renewables and Carbon Neutrality

Order backlog was EUR 818M (vs. EUR 382M at YE22), o/w EUR 341M related to Oil&Gas and EUR 477M in Renewables and Carbon Neutrality. This amount covers a consistent portion of the undisclosed business plan targets for 2024, according to the company. In addition, positive indications come both from Oil&Gas (negotiations for new orders are ongoing and their signing is expected soon) and from the Renewables and Carbon Neutrality segment (e.g. Offshore and Onshore Wind, and from CO2 capture and storage projects).

FY24E-26E estimates updated to reflect solid order backlog

We updated our FY24E estimates to embed a more solid performance both in Oil&Gas and in the Renewables and Carbon Neutrality market as for FY24E, which we see well-supported by the robust order backlog figures at YE23. Our projections for FY25E assume broadly stable profitability vs. our previous assumptions (6.6% EBITDA margin; EUR 19.5M net income). We then see still sound production in FY26E.

MID CORPORATE

FY23 Results

The key points of results were:

- Total revenues of EUR 359.1M vs. EUR 316.5M in FY22 (+13.5%): i) the Energy segment recorded EUR 315M vs. EUR 270M in FY22. We underline EUR 38M were recorded as for Technical Services; ii) Renewables and Carbon Neutrality posted EUR 32M sales (+19% vs. EUR 27M in FY22); and iii) Shipbuilding activities stood at EUR 12M vs. EUR 19M of FY22. Overall, notwithstanding a buoyant commercial activity throughout 2023, most of the order intake was signed in 2H23, with a limited contribution in terms of production during the last year from most recently acquired projects, which would be translated in turnover in 2024;
- EBITDA was EUR 21.9M (6.1% margin on revenues) vs. EUR 30.1M EBITDA in FY22 (9.5% margin). Raw materials, and costs for services and leasing increased more than proportionally vs. revenues (around +21/+22% yoy). This was due to the type of projects carried out through the year, which generated higher level of input costs;
- Net profit came in at EUR 7M vs. EUR 4.6M in FY22, and incorporate EUR 3.7M net financial charges, mainly referring to the parent company and Rosetti Superyachts;
- The short-term net cash position stood at EUR 69.9M vs. EUR 35.4M at YE22;
- BoD proposed a **dividend of EUR 1.0/sh**.

Earnings Outlook Powered by Strong Order Backlog

Order backlog was EUR 818M (vs. EUR 382M at YE22), o/w EUR 341M related to Oil&Gas and EUR 477M in Renewables and Carbon Neutrality.

The company disclosed that this amount covers a consistent portion of the undisclosed business plan targets for 2024. In addition, positive indications come from the reference markets:

- As for Oil&Gas, negotiations for new orders are ongoing and their signing is expected soon (e.g. FEED - Front End Engineering Design – for a gas platform for Denmark);
- Regarding Renewables and Carbon Neutrality, we recall that last October the company announced that it was awarded a new project for a total value over EUR 300M regarding EPC (Engineering, Procurement & Construction) activities in the Mediterranean Sea. The project regards the construction of a Gas Recovery Module (GRM) of about 5,000 tonnes that will be installed on the DP4 offshore facility, off the Libyan coast, for Mellitah Oil & Gas B.V. Libyan Branch, a consortium formed by National Oil Corporation of Libya and Eni North Africa. Activities will begin soon and are expected to be completed by early 2026, according to the press release. After the sound order backlog registered at YE23, new opportunities are coming from Offshore and Onshore Wind, and from CO2 capture and storage projects.

FY24E-26E estimates

We updated our FY24E estimates to embed a more solid performance both in Oil&Gas and in the Renewables and Carbon Neutrality market, which we see well-supported by the solid order backlog figures at YE23.

We then only fine-tune our projections for FY25E (broadly stable EBITDA margin and +3.2% at net income level). Then, we project a +1.8% increase in terms of revenues for FY26E, since we expect the group to continue to catch the opportunities coming in the reference markets, with a 6.8% EBITDA margin (slightly better yoy thanks to operating leverage effect).

DCF model

We also ran a valuation on a DCF model, which points to an equity value range of EUR 153.9M to EUR 184.1M.

Our key DCF assumptions are:

- Explicit forecasts through 2026E;
- An equity risk premium at 6.5%;
- A risk-free rate at 4%;
- A gearing ratio (D/invested capital) of 0.0%;
- We derived a WACC at 10.5%.

To calculate the terminal value, we used two approaches:

- We discount to perpetuity the 2026E FCFO at a WACC of 10.5%;
- We discount to perpetuity an EBIT level in line with mid-cycle 2010A-26E, excluding 2020A and 2021A that we deem as extraordinary, at a WACC of 10.5%.

Nevertheless, in view of Rosetti Marino's stable shareholding structure and limited trading volumes, we do not assign a rating or target price to the company.

Valuation and Key Risks

Coverage policy and frequency of research reports

The list of companies covered by the Research Department is available upon request. Intesa Sanpaolo SpA aims to provide continuous coverage of the companies on the list in conjunction with the timing of periodical accounting reports and any exceptional event that affects the issuer's operations. The companies for which Intesa Sanpaolo SpA acts as listing agent or specialist or other regulated roles are covered in compliance with regulations issued by regulatory bodies with jurisdiction. In the case of a short note, we advise investors to refer to the most recent company report published by Intesa Sanpaolo SpA's Research Department for a full analysis of valuation methodology, earnings assumptions, risks and the historical of recommendation and target price. In the Equity Daily note and Weekly Preview report the Research Department reconfirms the previously published ratings and target prices on the covered companies (or alternatively such ratings and target prices may be placed Under Review). Research qualified as a minor non-monetary benefit pursuant to provisions of Delegated Directive (EUR) 2017/593 is freely available on the IMI Corporate & Investment Banking Division web site (www.imi.intesasanpaolo.com); all other research is available by contacting your sales representative.

Our Mid Corporate Definition

Italy is characterised by a large number of non-listed and listed micro, small and medium-sized companies. Looking at the revenues of these Italian companies, around 5,000 companies eligible for listing have revenues below EUR 1,500M based on Intesa Sanpaolo elaborations. We define these companies as 'Mid Corporate'. Looking more specifically at Italian listed companies, we include in our Mid Corporate segment all STAR companies and those with a market capitalisation of around EUR 1Bn.

Equity Research Publications in Last 12M

The list of all recommendations on any financial instrument or issuer produced by Intesa Sanpaolo Research Department and distributed during the preceding 12-month period is available on the Intesa Sanpaolo website at the following address:

Valuation methodology (long-term horizon: 12M)

The Intesa Sanpaolo SpA Equity Research Department values the companies for which it assigns recommendations as follows:

We obtain a fair value using a number of valuation methodologies including: discounted cash flow method (DCF), dividend discount model (DDM), embedded value methodology, return on allocated capital, break-up value, asset-based valuation method, sum-of-the-parts, and multiples-based models (for example PE, P/BV, PCF, EV/Sales, EV/EBITDA, EV/EBIT, etc.). The financial analysts use the above valuation methods alternatively and/or jointly at their discretion. The assigned target price may differ from the fair value, as it also takes into account overall market/sector conditions, corporate/market events, and corporate specifics (ie, holding discounts) reasonably considered to be possible drivers of the company's share price performance. These factors may also be assessed using the methodologies indicated above.

Equity rating key: (long-term horizon: 12M)

In its recommendations, Intesa Sanpaolo SpA uses an "absolute" rating system, whose key is reported below:

Equity Rating Key (long-term horizon: 12M)

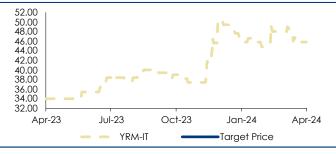

| Long-term rating | Definition |
|------------------|--|
| BUY | If the target price is 10% higher than the market price. |
| HOLD | If the target price is in a range 10% below or 10% above the market price. |
| SELL | If the target price is 10% lower than the market price. |
| RATING SUSPENDED | The investment rating and target price for this stock have been suspended as there is not a sufficient fundamental basis to determine an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock. |
| NO RATING | The company is or may be covered by the Research Department but no rating or target price is assigned either voluntarily or to comply with applicable regulations and/or firm policies in certain circumstances. |
| TENDER SHARES | We advise investors to tender the shares to the offer. |
| TARGET PRICE | The market price that the analyst believes the share may reach within a 12M time horizon. |
| MARKET PRICE | Closing price on the day before the issue date of the report, as indicated on the first page, except where otherwise indicated. |
| Note | Intesa Sanpaolo assigns ratings to stocks on a 12M horizon based on a number of fundamental drivers including, among others, updates to earnings and/or valuation models; short-term price movements alone do not imply a reassessment of the rating by the analyst. |

Historical recommendations and target price trends (long-term horizon: 12M)
